

Testimonials

I want to say that getting my Norwich terrier from Beth at Liberty Norwich was a wonderful experience. From the time my Gina was born, till she the time she came to live with me, the process was seamless. Beth kept me informed of Gina's progress with pictures, emails, and phone conversations. She instructed me how to make the puppy comfortable in her new home. We had the dog flown in and Beth even watch the weather so Gina wouldn't be in the cold. I had questions after Gina got here and Beth was always there for me with helpful information.

Gina is the nicest dog. Her disposition is the best! Gina "talks" to me when she wants something and loves to play tug-of-war. When we are out on our walk, she stops to say "hello" to all of her friends. And lest I forget to mention, she is the best looking dog in our neighborhood and everyone loves her! She is also wonderful with children. Anyone who wants a Norwich terrier will be very pleased to do business with Beth.

I recently had the pleasure of getting a Norwich terrier puppy from Beth at Liberty Farm Norwich. This is my first Norwich terrier; I previously had a great Westie. I found the kennel on the internet and completed all the communication via the internet. I live in Colorado so chose to drive to Missouri to pick up the puppy. The process went incredibly smoothly, and I would do it again without hesitation.

The puppy I got is wonderful. She has a great personality, is adorable, and full of spunk. She is great with adults and small children alike. I would highly recommend this breed and Liberty Farm without hesitation.

We bought our Norwich terrier from Beth at Liberty Farm Norwich in August of 2006. She was to be a birthday present to our daughter, and Beth worked with me to do everything they could do to ensure she arrived on the special day.

Hannah is our first Norwich terrier. We have Golden Retrievers and so we were not sure what to expect with a Norwich terrier. Well, we love her. She is a wonderful dog with a sweet, affectionate and playful temperament. She has a beautiful head and people will stop and ask what kind of dog she is. She is so friendly and loves to be made over. She plays with our Golden's like she is a little retriever bringing us anything we throw for her. She is a wonderful companion and follows us everywhere we go. We just put in an invisible fence, and it only took her 15 minutes to understand the whole concept. She is a very smart dog.

I would highly recommend a Norwich terrier to anyone contemplating adding a small dog to their family. Beth did an excellent job in describing the breed to us, and she is everything they said she would be and more. I appreciated receiving all the picture of Hannah and her litter mates prior to her arrival to Virginia. They kept us informed on how she was doing and answered all our questions. They truly care about their puppies and the homes they are going to, which was very reassuring to me as a prospective buyer. I did not just want a dog. I wanted a dog that was started correctly, and having a breeder that cared about where their puppies were going impressed me. My experience with Liberty Farm Norwich has been very positive, and I would recommend them as a breeder of Norwich terriers.

I had been looking for a Norwich terrier for several months – to no avail. The “show breeders” wouldn't even respond to me. I found Beth on-line and she contacted me almost immediately. She introduced herself, her operation, explained her philosophy on breeding, and the advantages of the Norwich breed.

I had a choice of two puppies which had just been born days before. I chose one from a picture and sent a deposit. Beth sent me some references of past clients, and I called them. She sent me pictures every couple of weeks so that I could follow my puppy's progress.

Because of the great distance, I paid to have our puppy shipped, via air, to the closest airport. She arrived early and displayed a tremendous amount of personality from the outset. We took her to our vet for a check-up, and he said that she is a wonderful specimen of the Norwich breed. We couldn't be happier with our choice and would recommend Beth to anyone who is interested.

Dear Beth & Family:

We've had our new little guy for about a week now. Thanks to all of you for the positive experience in picking out and picking up the newest member of our family. Our vet has told us, and we whole-heartedly agree that the fine care and attention he received was obvious. He's active, bright, inquisitive, and his self-confidence is almost comical, given he currently weighs all of 4.9 pounds.

The information and pictures on your website were very helpful, as the internet is the modern way to go shopping for a breeder when looking for a new pet. We appreciate you allowing us to come down and pick him out when he was just 10 days old. We anxiously waited the two months for his arrival, and the pictures you e-mailed every two weeks were like little presents that really brightened the day. Since this is our first "terrier" experience, we certainly appreciate your offer of assistance when we need puppy advice.

He's a sensation wherever I take him, and when asked how we found him, I always pass along the recommendation of Liberty Farm for Norwich puppies. Thank you again.

"Last December my husband and I became the proud recipients of a precious little Norwich terrier puppy named Gracie. Since that time our lives have been enriched in many ways. Gracie is now 6 months old. She has grown into a strong, confident individual. Her conformation is good and temperament very pleasing. She has bonded to us and we are her "people" just as she is our "baby"!

Our experience working with Beth and Liberty Farm Norwich was absolutely problem free. From the time I expressed interest in a puppy, Beth provided all the information I needed to make an informed decision. Once we decided on a puppy, she reserved Gracie for us. She provided regular updates and pictures from birth to 8 weeks when Gracie was ready for delivery to us. We had Gracie shipped via air. Beth's process for this is very efficient and safe for the puppy. Even though the airlines were delayed in their arrival, Gracie was in great shape and glad to see us. She was friendly and loving right from the start and has been so ever since. I credit this partly to the Norwich terrier breed, but especially to the caring way that Beth and family handle and socialize their puppies from birth.

If you are looking for a quality Norwich terrier puppy, an honest breeder and excellent customer service, then I highly recommend Beth and Liberty Farm Norwich."

After years of wanting that perfect dog, and finally being in a place where I could properly take care of one, I started doing research online and found Liberty Farm Norwich. Some weeks later, after a few phone calls and several email conversations, Beth told me I would be receiving an eight week old Norwich terrier puppy from her last litter. Being excited and nervous, never owning a dog before, I was concerned about our new arrival. Beth was always very helpful and calming. Her professionalism and knowledge made this exciting transition very easy.

Being from the city I was worried about the puppy traveling by plane from Missouri to New York; if he would be safe, how, and where I would pick him up. Beth and I planned his itinerary together; I never worried about his safety. I will never forget the first time I saw Paddington's adorable face. He is the friendliest, cutest puppy I have ever seen, but of course, I am biased. Having Paddington has been one of the greatest joys in my life, and Beth has had a lot to do with it. I certainly never imagined that I would buy my dog over the internet, something that is still a relatively new way of purchasing things, let alone a living creature.

His temperament is ideal for both children and adults. Walking down the street without someone stopping us, is impossible. Because of Beth, we were never anxious about sending her money. She always sent updates, even pictures, of our growing puppy. Everything she did was appreciated. I cannot imagine coming home anymore without Paddington being there to greet me.

Beth responded with consistent, detailed and timely communication throughout the adoption process. As a first-time Norwich terrier owner-to-be, she made me feel at ease with her willingness to explain answers to my many questions. Beth and her family also provided wonderful photos of my puppy's first eight weeks; making me feel like I already knew her before she came home to us. We are absolutely in love with our special little Norwich girl.

I've been very pleased with the personal service Liberty Farm Norwich has provided and I highly recommend them.

Rudy, our AKC Norwich terrier, is doing great! He is quite the little character to say the least. This little dog loves everyone and is loved by everyone. We are asked quite frequently, "What kind of dog is that?" Just kidding I answer that he is a Norwich terrorist. We have seen no other Norwich terriers around our area; they are scarce. We looked for a breeder that made us feel comfortable and certain that we were making a sound decision. After eighteen months, we found Beth at Liberty Farm Norwich, and we are very grateful for this.

Our experience working with Beth at Liberty Norwich was nothing short of pleasurable. Although we never met face to face, the process she walked us through made us feel safe. We were completely at ease and trusted her as she was very knowledgeable and answered all our questions. We were, in fact, first time buyers of a pet that had to be flown to us.

The shipping experience went very smoothly. Rudy came in a small blue carrier as scheduled, and he was very calm. I was so excited and could hardly wait to get home from Cleveland/ Hopkins Airport, which is only 10 minutes from our house, to hold him. Upon opening the little door on the carrier, this furry little dog came bounding out. His little tail was wagging and he was running in small circles. I expected to see some fear from him, but it was obvious he had been played with and he was not the least bit scared. It was as if he was returning home.

Rudy got his diploma in March for successfully completing his puppy obedience class. We never missed a class. Rudy makes friends wherever we go. He loves riding in the car and sits on my lap like a little ornament. This dog loves to play fetch; he is tireless to say the least.

We certainly have no regrets and love our littlest new family member. He makes us laugh all the time. Thank you for all your help.
